

The Scottie DNA Bank The Health Trust Fund of the STCA

The HTF has established a Scottish Terrier DNA Bank with Resero Genomics in Salt Lake City, UT for the preservation of Scottie DNA, to monitor genetic and genomic data of the breed, and to provide high quality DNA samples for future research and DNA testing to benefit all Scotties.

This one of a kind DNA Bank provides a unique opportunity for all Scottie owners to contribute to the body of Scottie genetic data while maintaining control of their own dogs' DNA. The DNA Bank will serve as an important asset for breeders and researchers, both now and in the years to come.

By contributing your Scottie's very small blood sample for DNA processing and storage, you are leaving an important legacy for the future of our beloved breed. There will be no charge to you for this important donation.

All Scottie DNA matters!
